

## **DURAPLATE®** Strength that lasts and lasts.

If you're hauling heavy weight loads, you'll be glad to know Supreme assembles its own DuraPlate® side walls to ensure the toughness you demand.

They feature a high-density polyethylene core bonded between two sheets of high-strength steel – a time-tested construction formula used in the heavy-duty trailer industry.

DuraPlate side walls deliver:

Reduced maintenance costs and related downtime

A moisture-resistant core material that helps prevent water damage

Fade-resistant exteriors to hold colors for years to come

A non-post construction that provides additional interior width
